

# **PERSONAL EXPENSE TRACKER**

## **IDEATION**

In today's expensive lifestyle we are in a great rush to make money but at the end of the day the expenses don't meet the income. Since we are spending money lavishly on little and unwanted things. Personal Expense Tracker aims to help everyone who are planning to know their expenses and save money. Personal Expense Tracker is a cloud application using which user can add expense on daily basis and corresponding table will get generated and at the end. Based on user expenses, a report will be generated. User can select data range to calculate his/her expenses. It makes your life easier by helping you to manage your finances efficiently. A personal finance app will not only help you with budgeting and accounting but also give you helpful insights about money management. By deploying the application into the IBM cloud it's easy to manage the data (files, photos, video, etc..) cloud provide platform as a service, this service helps to reduce maintenance and usability costs.
