

PERSONAL EXPENSE TRACKER

INTRODUCTION

In today's busy and expensive life we are in a great rush to make money but at the end of the day we broke off .as we are unknowingly spending money on little and unwanted things so we have come over with idea to track our earning. daily expense tracker aims to help everyone who are planning to know their expense and save from it. personal expense tracker is a website in which user can add expense on daily basis and its table will get generated and at the end based on user expense report will generated .user can select data range to calculate his/her expenses. personal finance entails all the financial decisions and activities that a Finance app makes your life easier by helping you to manage your finances efficiently. A personal finance app will not only help you with budgeting and accounting but also give you helpful insights about money management.

ABSTRACT

Personal finance applications will ask users to add their expenses and based on their expenses wallet balance will be updated which will be visible to the user. Also, users can get an analysis of their expenditure in graphical forms. They have an option to set a limit for the amount to be used for that particular month if the limit is exceeded the user will be notified with an email alert. we deploy the application into the IBM cloud so it's managing our data (files, photos,video,etc..). cloud provide platform as a service .this service helps to reduce maintance and usability costs.
